

funds to support the aid effort in Ukraine. We raised approximately £470.00 which will be donated to the British Red Cross.

COVID

COVID has not gone away. `Normal' does not mean that COVID does not affect schools and positive cases have disappeared. This is not the case. We are aware of a very small number of cases in our school—the levels do not require us to put in place additional measures however it is a stark reminder that we must all be vigilant and still take care in our day to day lives.

Year 6

Year 6 pupils have all received their secondary allocations. If your child does not have a place or you have concerns regarding their allocated school, please contact your child's class teacher who will be able to advise.

School dinners

Please ensure that your account is in credit before requesting your child has a school meal. You will be contacted by the school office if you need to top up your account.

BOND PRIMARY SCHOOL

Dates for diary

Friday 18th March—Red Nose Day

Week commencing—21/3/22—Parents Evening

Friday 1st April - Last day of term

Tuesday 19th April—School reopens to children

Attendance Stars!

Well done to the following classes for their attendance .

Dahlia—98.6%

Quinn—98.6%

are interested and care. However it can be very frustrating when you ask your child how their day was and they respond with very little at all. Changing what we ask may be the key to really finding out about your child's day. Below are some suggestions that will help you to know about your child's day at school:

- **What did you learn today?**
- **Did you have fun?**
- **What was the best part of your day and why?**
- **What did you do today that you are proud of?**
- **Who did you play with today and what did you play?**

Give careful consideration as to when you speak to your child about their day. Straightaway when you collect them is not always the best time. This is the time for reconnections—big hugs, smiles - you are just so happy to see them at the end of their school day! Sometimes on your way home, whilst you're doing the dishes, preparing the evening meal, doing something together or going for a walk can be better times to ask your child about their day. Give it a try.

Online Safety

We are dealing with behaviours that are taking place outside of school and cause difficulties in school. Often these are linked to children's online activities at home. It is really important that your children are closely monitored whilst online. Children feel a lot more confident to hide behind the screen to share unkind or sometimes inappropriate comments to each other. In addition your child is always only one click away from discovering something they shouldn't online. Below are links offering support to parents:

This week year groups across the school have taken part in science workshops. Years 4 and 6 took part in a forensic science workshop as part of Bond's celebration of British Science Week. Science week is designed to raise awareness and spark enthusiasm and celebrate science, engineering, technology and maths with people of all ages and from all walks of life. Here at Bond, we are keen to make science accessible for all and prepare our children to be participants in the world of science and technology, and this workshop did just that. Children got first-hand experience of how DNA is used, and some were even able to catch suspects using DNA profiles. Thank you Ivan for a wonderfully interactive session.

Ukraine

All across Bond, the children and staff were showing their support for the Ukrainian community by wearing yellow and blue. We raised approximately £470.00 so thank you to each and everyone of you for your support.
