

Headteacher message

Would you believe Bond Primary School once called XXXX is 82 years old and still going strong!

Dates for diary

Monday 9th May- Friday 13th May—

Year 6 SATs week

Monday 16th May - Friday 27th May

KS1 SATs assessment window

Monday 16th May -

Dental survey reception and year 1

Wednesday 18th May -

Reception and year 3 trip to the library

23rd May—27th May :

Year 5 Bikeability

Monday 30th May— Friday 3rd June

Half term

Monday 6th June

School closed Inset Day

Tuesday 7th June—

School reopens to children

Queen's Jubilee picnic

Year 6 trip to Chessington

Tuesday 7th June—Friday 10th June

Phonics Screening Check

Attendance Stars!

Well done to the following classes for their attendance .

Dahlia—98.3%

Sunflower—100%

Whole school attendance— 94.5%

Our whole school target is 96%

Key Stage 1

This week in Year 2 we received a letter asking us to make the digestive biscuit look a bit less boring. After designing our biscuits, we got to work creating our designs using icing, chocolate buttons, smarties and sprinkles. Mcvities sure have some new competition!

Also, just to say a huge well done to all the Year 2 children who have completed their reading papers in their SATs. They have all given amazing effort in their tests! Next week, we will be doing the Maths SATs.

Messy[®] church

FUN

Key Stage one

Year 1 had a wonderful time at Mitcham library this week. They learnt about the Queen's jubilee and created bunting to enter into a competition. Then we had a look at all of the books and chose one each to bring back to school to read.

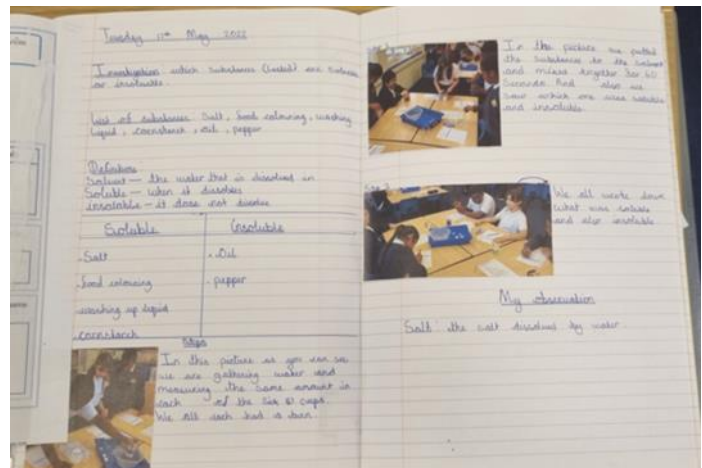

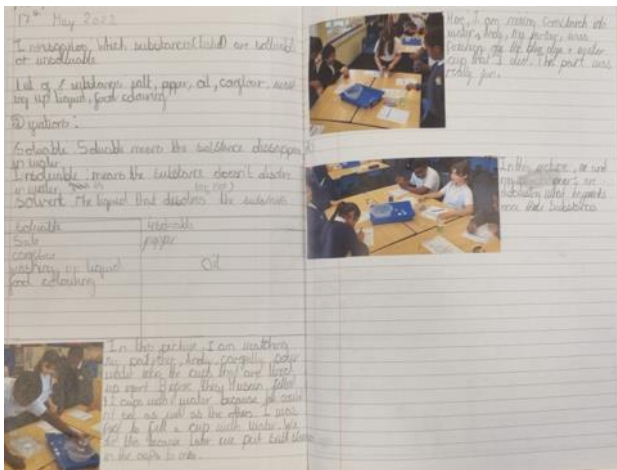

Key Stage 2

In science, year 5 completed an experiment:

WALT determine which substances are soluble and which are insoluble.

For the experiment, each group had 6 x beakers; 6 x bottle tops (containing different substances: salt, pepper, oil, corn flour; dish washing liquid ; food colouring) and stirring sticks. They had to fill each beaker with 200ml water and then stir a substance into each. Then, they had to determine which substance is soluble and which is insoluble. Then, we wrote our observations down.

During D&T, year 5 have been working on their carnival prototypes. Year 5 will be making rucksacks. We learnt that a **prototype** normally looks and works like the real thing. It is the first example and there may be some problems with it which will probably need changing. The prototype model will be used for testing, development and evaluation. We used paper straws and tape to create our structures and then to elaborate on them, using tissue paper / cardboard. We are very excited to start building our actual carnival structures.

SOME YEAR 5 PROTOTYPE MAKING PHOTOS – WE ARE MAKING CARNIVAL RUCKSACKS

Can you see how we are developing our ideas?

Year 6

Today, Year 6 visited the Imperial War Museum where they were able to immerse themselves in all their learning of World War I and World War II in both year 5 and 6.

Children were able to see real life Spit-fire planes and were able to walk through replica trenches, to see what life would have been like for the soldiers who fought in these difficult conditions. Children had a really enjoyable day and their behaviour was exemplary.

Well done Year 6!
