Headteacher message

Every Friday should be a Wacky Hair Friday! Thank you all so much for the wonderful effort you have made today. I have seen some amazing hairstyles.

There has been more considerate parking on Bond road since my previous message.. Please continue to not park on the pavements outside of the school and nearby businesses or block our vehicle entrance.   It makes such a difference for pedestrians using the pavements - it is much safer. Ensure that you are modelling to our children how to use the zebra crossing , this is really important. Remind children that they must make sure that all vehicles have stopped before crossing the road. This is particularly pertinent for our zebra crossing as blind spots do occur when vehicles are queuing to turn into or out of Mortimer Road. Please take care.

Bond Primary School has raised £109.58 and rising for Comic Relief, by wearing red noses and "Wacky Hair".

Thank you! Every little helps.

Dates for diary

Class assemblies

Date	Class
29th March	Waterlily
26th April	Dahla

Monday 20th March

Years 1and 2 Silly Science workshop

Years 3 and 4 Human Body in VR workshop

Visit new places, have fun and win prizes!

Check out your dashboard to see what awards you have earned and which ones you can still play for. You can play using cards or our Beat the Street App (age 13+)!

How to play

1 Create your Beat the Street account on our website at **beatthestreet.me/merton** or by downloading our Beat the Street App via Google Play or the App Store.

2 Add family members, and register a card to player profiles. Set up a team or join an existing one.

3 Start your journey. Find your nearest Beat Box using paper or digital map and hover your card at the contactless Beat Box until it beeps and flashes. If playing with the app, tap the Beat Box icon on your phone and swipe to collect points.

4 Visit 2 Beat Boxes within an hour and collect 10 points for each Beat Box – this is 20 points for the journey.

5 Carry on your journey. Score 10 points for each extra Box you visit.

By playing with the Beat the Street App you can get access to exclusive features! Collect Gems, choose an avatar to represent you and raise the competition with our team leaderboards.

There is so much to discover!

Is your child protected? NHS

It's not too late to catch up
on their vaccinations

If your child has missed a vaccine,
contact your GP to catch up

Protect your child. Get vaccinated.
NHS.uk/childvaccines

Polio is spreading in London. Make sure your child is up to date on their routine vaccinations: Polio is a serious virus that can cause paralysis or in some cases, even death. Check your child's red book or contact your GP to check your child's vaccine status. If your child has missed one of their vaccinations, it's not too late, please contact your GP to book a vaccination as soon as you can.
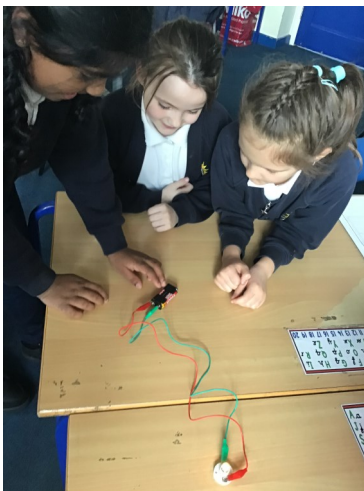

Search 'NHS polio' or visit nhs.uk/polio

Year 3

Hibiscus class were learning what it takes to make bread. They learnt what ingredients are in bread and how wheat gets from the field into the shops.

In D and T, year three are learning about electrical circuits. We learnt how to make a simple series circuit and a parallel circuit.

Year three published their fables this week by reading them to year two and discussing the morals of their tales.

Year 5

This week Carnation class have been busy learning about Emergency Aid in PSHE. We got into partners and practised the recovery position procedure. During the session, we reflected on how it felt to support someone who needed our help and the importance of being able to keep a level-head when faced with an emergency situation. Everyone felt confident in knowing who to call in an emergency but it also boosted our awareness of how we can support others before the emergency services arrive.

In Computing, we have been busy exploring databases. We compared paper records to those on the computer before taking a vote as to which one was more efficient. The majority of the class concluded that computer databases enabled records to be organised and filtered much quicker than doing it by hand. Databases are a wonderful way of grouping information about countries, animals, food and more. Next, we will be thinking about our own topic interests (superheroes, robotics, cakes, beaches) and creating our own databases.

In celebration of British Science week- we have continued our investigation of the life cycle of different mammals. We then played a game of 'Zoom in' 'Zoom out' on through 'Explorify' where we had to guess what the microscope was showing us.
